

METHOD AND APPARATUS FOR VISUAL BUSINESS COMPUTING

ABSTRACT

5

A computer readable medium containing program instructions for providing data to a web page is provided. Computer readable code allows a user to form a hierarchical tree comprising a plurality of nodes. Computer readable code allows the user to select a node from the hierarchical tree, wherein the selected node has at least one attribute. Computer readable code allows a user to bind the at least one attribute to the web page.

A computer readable medium containing program instructions for managing a network of computers is provided. A computer readable code allows a user to form a hierarchical tree comprising a plurality of nodes. A computer readable code allows a user to bind nodes of the hierarchical tree.
